

EXHIBITION STAND DESCRIPTION**INSTEM COMPUTER SYSTEMS LTD**

Walton Industrial Estate, Stone,
Staffs ST15 0LT UK
Tel: 0785 812131 Telex: 36340 Fax: 0785 812460

STAND 25

DATATEX is a computers system specifically designed for experimental toxicology data management. **DATATEX** provides an integrated data capture, management and reporting facility for all aspects of toxicology. The complete **DATATEX** system is exhibited, so please take this opportunity to see how Instem can help you.

INVERESK RESEARCH INTERNATIONAL LTD**STAND 31 & 32**

Musselburgh EH21 7UB Scotland
Tel: 031 665 6881 Telex: 727228 Fax: 031 665 9976

Inveresk Research International (IRI) is an independent Scottish company providing contract research services to industry and government worldwide.

The work includes the assessment of the safety and efficacy of pharmaceutical and veterinary drugs, industrial, agricultural and consumer products and the application of biotechnology to health-care and other industrial disciplines.

LABCAT/INNOVATIVE PROGRAMMING ASSOCIATES**STAND 17**

The Grange, Weybridge, Surrey
Surrey KT14 7PL UK
Tel: 0379 852875 Telex: 975787 HISTOG Fax: 0379 854379

LABCAT Innovative Programming Associates produce toxicology software. Our worldwide clientele speaks for the quality of the product. Over 275 systems have been purchased to date. If you are interested in genetic toxicology, general toxicology, clinical chemistry, haematology, organ weights/necropsy records or histopathology please come and visit stand 17.

LIFE SCIENCE RESEARCH LTD**STAND 29 & 30**

Eye, Suffolk IP23 7PX UK
Tel: 0379 643122 Telex: 975389 Fax: 037971

Life Science Research and its sister company Bio/dynamic provide a wide-ranging safety and efficacy evaluation service for chemically and biologically derived products, encompassing:

- alternative method development
- carcinogenicity and mutagenicity studies
- consultancy services
- contract pathology
- environmental studies
- immunotoxicology

- industrial toxicology
- inhalation toxicology
- metabolism and pharmacokinetics
- registration services
- reproductive studies
- subchronic and chronic toxicology

LIFE SCIENCE RESEARCH - ROMA TOXICOLOGY CENTRE**Stand 13**

Via Tito, Speri 12/14
00040 Pomezia, Italy
Tel: (06) 9120351 Telex: 616421 Fax: (06) 9125387

Life Science Research-Roma Toxicology Centre is a contract Research Laboratory specializing in toxicology services to a range of industrial clients including the pharmaceutical, chemical and food industries. LSR-RTC offers a full range of safety assessment studies designed to satisfy registration requirements worldwide for both pharmaceutical and non-pharmaceutical products.

EXHIBITION STAND DESCRIPTION**MUMED**

Mumed Limited,
Suite 500,
Chesham House,
150 Regent Street,
London W1R 5FA
Tel: 01-439 6288 Fax: 01-734 4166

STAND 6

Development and manufacture of precision digital electronic data capture systems for use in toxicology and pharmacology. PMX for long-term monitoring of tidal volume and respiratory rate in conscious animals (e.g. reactions to noxious materials), PMS for measurement of dynamic resistance and compliance in anaesthetised animals (e.g. airway hyperreactivity), AIMplus for measurement of accumulation or dispersal of isotope labelled materials (e.g. accumulation of plasma proteins, inflammatory cells, platelets and mucociliary clearance). Customised software development when appropriate.

NATIONAL TESTING CORPORATION

888 Research Dr. Suite 109,
Palm Springs CA 92262 USA
Tel: 619-323-8474 Fax: 619-323-7224

STAND 3

National Testing Corporation manufactures EYTEX™ and SKINTEX™ in vitro methods which predict ocular and dermal safety. The EYTEX™ system of reagents and instrumentation can be purchased for in-house testing programs. Samples can be submitted for analysis by the EYTEX™ method to the Laboratory Services Division. These products are distributed by ROPAK CORPORATION in Europe and the Far East.

PATHOLOGY DATA SYSTEMS

K+H-Uhlandstr. 179/180, D-1000 Berlin 12
Tel: 030-31288428535

STAND 11

PDS presents recent developments of the PATHDATA SYSTEM, a software package designed for the acquisition and evaluation of postmortem toxicology data. PDS also introduces its newly developed TOXDATA SYSTEM, a software package designed for the acquisition and evaluation of in-life toxicology data. The PATHDATA/TOXDATA SYSTEM is a future-oriented data base system running on DEC Vax, IBM PC, and HP9000 computers.

PERGAMON PRESS

Headington Hill Hall, Oxford OX3 0BW, UK
Tel: 0865 64881 Telex: 83177 Fax: 0865 60285

STAND 7

Pergamon Press is a leading international STM publisher with a wide range of titles in toxicology including our new journal TOXICOLOGY IN VITRO, and established titles such as TOXICON. Come and see our CAB5 online demonstration and our extensive range of books and journals at Stand No. 7.

RBM ISTITUTO DI RICERCHE BIOMEDICHE "A. MARXER" SpA **STAND 34**

via Ribes,
110010 Colleretto Giacosa (TO) Italy
Tel: 0039 125 53746 Telex: 215430 RBMI Fax: 0039 125 53585

Our stand shows the main scientific activities and services carried out at the RBM Institute and in particular General and Reproductive Toxicology, Ecotoxicology, Mutagenesis, Pharmacokinetic in animals and in healthy volunteers both with labelled and unlabelled compounds, histopathology and Histotechnology services, Molecular Pharmacology and Immunotoxicology.

EXHIBITION STAND DESCRIPTION

RCC GROUP

Postfach CH-4452 Itingen, Switzerland
Tel: 061/98 52 52

The RCC Group is an independent, GLP-compliant, full service contract toxicology, chemistry and environmental research and consulting organization divided into:

RCC Research and Consulting AG

RCC Research and Consulting AG Geneva

RCC Umweltchemie AG

CCR Cytotest Cell Research GmbH and Co KG

RCC Registration and Consulting Company AG

RCC Notox Research and Consulting Company b.v.

RCC Research and Consulting Company UK Ltd.

STAND 26

SCANTOX LTD

Tornbjergvej 40
Ejby, DK-4623 Lille Skensved, Denmark
Tel: +45 382 11 00, Fax: +45 382 12 02

Scantox Ltd is an independent Danish contract research laboratory undertaking toxicological, pharmacodynamic and pharmacokinetic studies with drugs, biomedical products (devices), chemicals, pesticides, food additives and skin care products. Scantox Ltd is the only contract research laboratory in Scandinavia. The laboratory is authorised by the Danish National Testing Board and has recently been inspected by the Japanese GLP authorities.

STAND 16

SHIN NIPPON BIOMEDICAL LABORATORIES LTD

STAND 18

USA Representative Office
PO Box 856 Frederick, Maryland 21701-0856 USA
Tel: 301/662 1023, Fax: 301 694 3506

Shin Nippon Biomedical Laboratories Ltd established Research & Development Laboratories for Toxicological studies in Japan in 1957. Our slogan is QUALITY AND RELIABILITY. Our expertise is in studies with monkeys and beagles. We can provide assistance in submission of toxicological data to Japanese ministries, Health & Welfare, International Trade & Industry, Agriculture & Forestry, Environment.

TAYLOR & FRANCIS LTD

STAND 4

Rankine Road,
Basingstoke, Hants RG24 0PR UK
Tel: 0256 8400366 Telex: 85840 Fax: 0256 479438
